

Science of Sight

Dr Mariya Moosajee

Early retina grown from patient skin

Dr Mariya Moosajee will be showcasing her innovative research into blinding genetic eye disease as well as tactile art from the BlindArt Collection at Moorfields Eye Hospital in a three-day event...

Scientists, patients and artists will join Dr Moosajee to demonstrate that art is accessible for all and how science can explain why...

Please come along. It's free entry to the Science Museum and Science of Sight exhibition! For more information, please contact us:

Where: Science Museum,
Exhibition Road,
South Kensington,
London
SW7 2DD
